ABOUT

Welcome to House of Islas, I'm Rashae.

This guide is a collection of my favorite organization products, chosen with real life in mind.

As a busy mama, I know how quickly the mess adds up and how overwhelming it can feel to constantly manage it all.

I believe organization shouldn't add pressure or become another thing on your to-do list.

It should support you, reduce overwhelm, and make everyday routines feel a little less heavy.

These are simple, thoughtful solutions that help your home work better for you, without adding more to your mental load.

KITCHEN

Clear Bins

Ask me how much I love clear bins and the answer is... a lot. They work great for produce in the fridge or snacks in the pantry, and being able to see what you have makes life easier.

Clear Bins with Dividers

These are perfect for smaller items like granola bars or drink packets that tend to get lost. The dividers keep things from turning into a pile.

Canned Food Dispenser

I love these rolling can dispensers because stacked cans aren't always stable. Plus, you can actually see what you have, which helps avoid buying duplicates.

BEDROOM

Under Bed Storage

If you live in a small space, or just have a lot of stuff, don't sleep on under-bed storage. It's one of the easiest ways to add storage without adding clutter.

Bed Sheet Storage

Folding and storing sheets can feel unnecessarily annoying. These keep sets together and make the whole process way less frustrating.

Multi Plug Outlet

If you're tired of messy cords and bulky outlets, this is a great solution. One small swap that makes a big difference visually.

BEDROOM

Storage Bench

Not only is this bench gorgeous, it's also great for extra storage like throw blankets. I love multi-purpose furniture.

Bed Sheet Holder

If changing your sheets feels like a weekly battle, these holders keep everything in place so you can actually rest easy.

Drawer Dividers

Perfect for visual organization in drawers - bras and underwear, long sleeves and short sleeves, or anything else you want separated and easy to see.

CLOSET

Velvet Hangers

If there's only one thing you buy from this guide, let it be these. They save a surprising amount of space, prevent clothes from slipping, and feel like a small everyday luxury.

Hanger Connector Hooks

Great for shared closets or tight spaces, these help you take advantage of vertical space without adding bulk.

Clear Shelf Dividers

Basically drawer dividers, but for your closet. They keep stacks from falling over - just make sure you measure your shelves first.

CLOSET

Multi Compartment Hamper

A sleek, space-saving option for sorting laundry - whether you're separating your own clothes or sharing with someone else.

Storage Bins

Your bedroom is your sanctuary, so it's totally okay to splurge a little on storage that's both functional and nice to look at.

Storage Bins

Storage bins work everywhere. If you want things to feel cohesive, find a style you like and buy them in bulk.

BATHROOM

Under Sink Storage

I'm a big believer in using every available inch of space. These shelves work well under sinks in kitchens, bathrooms, and laundry rooms.

Drawer Organizer Bins

If you're constantly digging through drawers, these multi-size bins are worth it. They fit together neatly so every item has a designated spot.

Counter Corner Shelf

Corner shelving is one of my go-to solutions for small spaces. I have one in my shared bathroom and it helps separate items without taking up much room.

BATHROOM

Storage Bins

Another great storage bin option. Clip-on labels help avoid confusion and make it easier to maintain systems long-term.

Shower Corner Shelf

If you're tired of re-hanging a shower organizer that keeps falling, this is a more stable and frustration-free option.

Glass Jars with Tray

Perfect for small toiletries or similar items, these work well in bathrooms or even on a nightstand.

PLAYROOM

Toy Organizer

I love neutral furniture, with the option to add pops of color elsewhere. This shelving unit is beautiful and practical.

Toy Organizer with Bins

Bins really do make everything easier. You don't have to stack toys perfectly - just give them a home that isn't the floor.

Storage Bins with Lids

Don't want to look at the mess? Bins with lids are your friend. Especially helpful for things like LEGOs.

PLAYROOM

Wooden Bookshelf

My son is only one and already has an ever-growing book collection. Skip flimsy storage and choose something sturdy that'll last.

Bookshelf with Seat

Such a good multi-use piece. Seating, book storage, and drawers all in one - and it grows with your child.

Stuffed Animal Storage

If your child isn't ready to part with any of their stuffed animals, this is a great way to save space while keeping them accessible.

GARAGE

Heavy Duty Metal Shelving

Don't skimp on shelving for long-term storage. Cheaper options usually mean replacing them later. These take time (and another person) to assemble, but they're worth it.

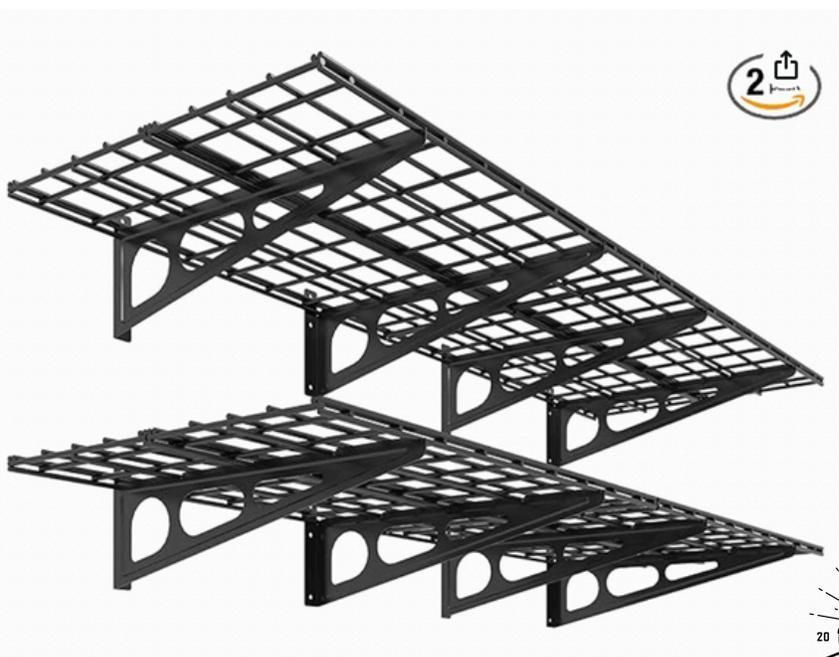

Overhead Shelving

If you're not using vertical space, you're missing out. A lot of homes have more storage potential than people realize.

Wall Mounted Shelving

A great alternative if bulky shelving isn't your style. These add storage without taking up floor space.

GARAGE

Storage Totes

My go-to totes for long-term storage. They're sturdy and have plenty of space for clear, easy-to-read labels.

Power Tool Storage

If tools are part of your household, giving them a designated spot in the garage saves space and makes them easier to access.

Garden Tool Storage

Same idea as tool storage - using vertical space keeps things tidy and easy to grab.

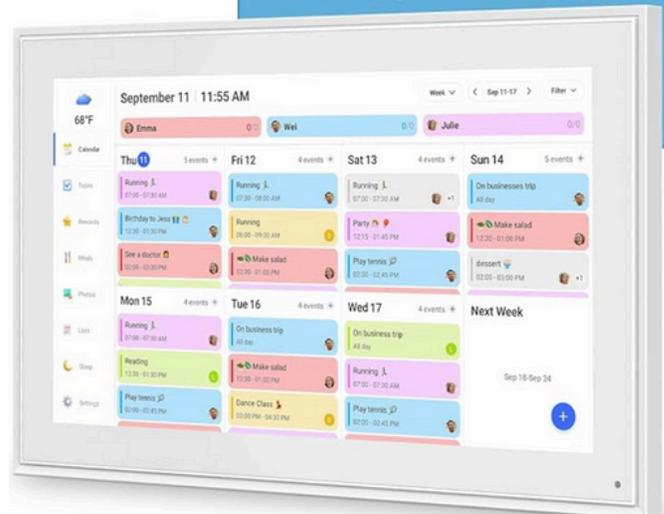

MISCELLANEOUS

Digital Calendar

Digital Calendar

If you're tired of the stress of managing multiple schedules and losing sticky note reminders, do yourself a favor and buy this. You deserve it.

Toniebox Kids Playtime Toy

A great option for screen-free play. Perfect to have on hand for independent listening and imagination.

Electronics Charging Station

If you're an Apple household, this is an easy win. Three devices, one cord, and far less clutter.

MISCELLANEOUS

Reusable Grocery Bags

A small swap that helps reduce waste. These are stronger than they look and hold more than you'd expect.

Trunk Organizer

I genuinely don't know how I'd function without this. Perfect for groceries, diaper stuff, emergency kits - nothing rolling around anymore.

X-Mas Tree Storage

If your tree is still living in its original box, this is a worthwhile upgrade. It makes storing it so much easier.

ADDITIONAL SUPPORT

If these tools help but things still feel overwhelming, you don't have to figure it out alone. I currently offer in-person professional organizing services designed to create systems that actually work for real life.

And for those outside my service area, I'll be expanding to offer online support in 2026. When the time feels right, I'd love to help you create a calmer, more functional home.

You can learn more about my in-person services on my website.
